**Re: Mid-Continent LST - File No. M-1982-121
 RMR Aggregates, Inc.
 Technical Revision (TR-9)
 Incorporating rock bolting into Reclamation Plan**

Dear Gregory Dangler:

On November 5, 2025 the Division of Reclamation, Mining and Safety concluded its review of the Technical Revision application submitted to the Division on April 10, 2025, addressing the following:

The revision proposes an addition to the quarry reclamation plan which includes a plan for highwall stabilization, should that action be required. COntidential and non-confidential versions have been submitted.

The decision reached by the Division is: approve. Accept proposed of Rock Bolting plan as means for immediate final reclmation and highwall stabilization in the event of revocation and forfeiture. Bond will be adjusted under a seperate revision.

The terms of Technical Revision No. 9 approved by the Division are hereby incorporated into Permit No. M-1982-121. All other conditions and requirements of Permit No. M-1982-121 remain in full force and effect.
